

Dharmil Panchal

Full-Stack Developer Intern | React.js, Node.js & Python

9904274531 | dharmilpanchal2031@gmail.com | [GitHub](#) | [Linkedin](#) | [Portfolio](#)

EDUCATION

L.J. Institute of Engineering and Technology | Ahmedabad, Gujarat

Graduation Year : 2028

B.E. in Computer Engineering (2nd Year, Semester 4)

CGPA : **9.027** (Up to Semester 3)

TECHNICAL SKILLS

- **Languages:** Python, JavaScript (ES6+), SQL, Java
- **Frontend:** React, Component-Based Architecture, HTML5, CSS3, TailwindCSS
- **Backend:** Node, Express, REST APIs, Django REST Framework, WebSockets (Socket.io)
- **Databases:** MongoDB, PostgreSQL, MySQL, SQLite
- **Tools :** Git, GitHub, Postman

PROJECTS

ARKodee - Gamified real-time competitive coding platform

[Github](#)

React.js, Node.js, Express.js, Django REST Framework, WebSockets (Socket.io), PostgreSQL, Python, JavaScript.

- Architected a real-time 1v1 coding platform using **React** (component-based architecture) and **Node.js/Express**, featuring dynamic UI updates, live matchmaking queues, and real-time ELO updates.
- Engineered low-latency **Socket.io** handlers in **Node.js** for instant duel state synchronization, real-time code execution feedback, and opponent sabotage triggers.
- Built optimized **RESTful APIs** and relational schema in **PostgreSQL** to manage user authentication, power-up inventories, and match history tracking.

Stocxsim - Virtual stock trading & Portfolio simulator

[Github](#)

Python, Flask, Flask-SocketIO (Socket.IO), PostgreSQL, SmartAPI (Angel One), HTML/CSS/JavaScript, Plotly

- Developed **Stocxsim**, a high-fidelity stock trading simulator with real-time **WebSocket** data streaming and interactive dashboard visualization.
- Built performant backend API services to model realistic order matching, slippage calculation, and strategy evaluation latency.
- Designed automated data pipelines and responsive frontend analytics dashboards using **JavaScript** and **Plotly** for live metric rendering (P&L, Sharpe Ratio, Max Drawdown).

CERTIFICATIONS

- Exploratory Data Analysis for Machine Learning – IBM | [Credential](#)
- Introduction to HTML, CSS, & JavaScript – IBM | [Credential](#)
- Inheritance and Data Structures in Java – University of Pennsylvania | [Credential](#)
